SCHOOL REPORT.

In presenting this annual report of the condition of the schools of the town, the Board feel that little need be said. Doubtless judgment has been rendered upon the action of the Board individually and collectively by our people, and whatever we might say would probably not reverse the decision.

Many embarrassing situations have had to be met and we have the charity to believe that credit will be given us for endeavoring to secure the greatest good to the greatest number.

It is a hackneyed subject, but the experiences of the past year have demonstrated anew the truth of the principle that only as parents, teachers and the School Board work together can the best results be obtained. No possible trouble can arise in the schools which this combination cannot bring to a successful issue. We wish the parents to believe that the teachers and School Board have no possible object to serve but the best interests of the pupils, and any aid rendered them will but further this object.

Recognizing the injustice of giving the scholars at the center of the town more schooling than has been given those of the outside districts, we have, the past year, divided the school money so as to give all the primary scholars in town equal school facilities, thus securing for the outside districts three terms of nine weeks each instead of two terms of ten weeks, as heretofore. The principle involved in this change must commend itself to the judgment of all, although in its practical workings it has caused some friction.

A reference to the posted warrant will show that the Board ask the District to take action upon three special subjects. First, in relation to enlarging the Grammar school room. This is simply a question of necessity. Several scholars were kept from school this winter through lack of seating capacity. We suggest that the center hall be taken into the room, thus increasing the seating capacity by twelve.

Second, in relation to changing the method of heating the building. Everyone recognizes the advantages of heating by furnaces in place of stoves in public buildings. This method of heating was contemplated when the building was remodeled. Shall it be done now?

Third, in relation to new floors. When this subject comes up for discussion we feel that the strongest language will be none too forceful. Every consideration of health and cleanliness demands the putting in of a suitable floor.

Herewith we submit the Statistical and Treasurer's reports for the year, all of which is respectfully submitted.

H. F. ROBINSON,	} School Board.
C. H. DUTTON,	
F. M. DAVIS,	

Hancock, N. H., Feb. 18, 1897.

ROLL OF HONOR.

PERFECT RECORD FOR THE YEAR.
